Maybe even better than free.

You can upload any type of file (movies, music, documents, images, zip files and more). Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. The cost of that data transfer is covered by your internet service or the data plan on your phone. Simply upload your file and share the link. There are no restrictions on the number of times a file can be downloaded. Just upload the file you want to share with your friends and we send you a download link to your file. You decide who you want to share your files with. We have no file size limit. filehosting provides an easy possibility for you to send large files to your friends. It is also allowed to link to the downloadpage from websites and communities.
