You can give this download link to your friends by mail or instant messenger. There are no restrictions on the number of times a file can be downloaded. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You can upload any type of file (movies, music, documents, images, zip files and more). Any file in any format can be uploadedand downloaded for free. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Your wallet will be none-the-lighter!Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers toyour friends device. Our service is completely free for everyone. Just upload the file you want to share with your friends and we send you a download link toyour file. You don't need any special software installed to be able to download your files. Using file, you can circumvent those limits without paying to upgradeyour team chat service. We have no file size limit. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you moneyin data storage fees. Simply upload your file and share the link. It is also allowed to link to the download page from websites and communities. Unfortunately, we can't make that part free. No account or credit card is required to get started. You decide who you want to share your files with. Why pay storage fees for afile that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. filehosting provides an easy possibility for you to send large files to your friends. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files can be downloaded from any computer from our high speed servers. Keep your files private, or send your do
